

## PaintTag™

### Tags for Fabricators and Metal Painting Contractors

- For applications where fabricators are identifying pieces before, during, and after painting
- Resistant to:
  - Heat—1000°F (538°C)
  - Chemical
  - Abrasion
  - UV Exposure
- 3" (76mm) Wide X Customized Length
- Metal substrate with laser markable coatings

- ◆ PaintTag™ is ideal for tracking work pieces through acid prep and painting operation.
- ◆ Increase efficiency & reduce handling—tags are applied once and are readable throughout the process.
- ◆ Traceability & error proof installations.
- ◆ Printable with InfoSight LabelLase® Metal Tag Printers. →
- ◆ Preprinted tags are available.

Find out how easy it is to design and print your tags with a LabelLase® Metal Tag Printer & free Producer™ Software.
